Specifications

Adapter Length	60cm / 23.6in
Weight	127g / 0.28lb

Target Audience

For filmmakers or lighting technicians who want to use select Aputure fixtures such as the INFINIBARs, MT Pro, and MC Pro with DMX, this USB-C to DMX Adapter is a must-have in their tool kits. This simple adapter unlocks an entire world of DMX control for Aputure fixtures with USB-C control capabilities while also charging the fixture. With this adapter, these already powerful fixture options will become even more potent for DMX users and technicians.

Product Description

The Aputure Active USB Type-C to 5-Pin DMX In & Out Adapter is a USB-C to standard 5-Pin DMX adapter that allows users to connect Aputure fixtures such as the INFINIBARs, MT Pro, and MC Pro in series to a DMX network. Featuring a built in DMX/RDM chip, this adapter ensures stable DMX/RDM wired control of fixtures. This adapter charges lights over USB-C while the light is wired into a DMX network and has a 3/8in Screw Thread with Arri Locating Pins on the rear panel to allow users to mount this adapter to the fixture itself or to additional off-fixture mounting points.
