

# Waterproof Pouch for the MT Pro Data Sheet

## Main Features

- Transparent TPU Waterproof Pouch Specifically Made for the MT Pro
- IPX8 Waterproofing Rating
- Utilize MT Pro in **Wet** or **Submerged** Conditions
- Waterproof MT Pro for Up to **10 Meters** Under Water
- Capable of Withstanding Water Pressures up to **0.21 Mpa**

## Target Audience

The Aputure Waterproof Pouch for the MT Pro is ideal for users who want to deploy their MT Pro in situations that may involve the fixture encountering water. With the Waterproof Pouch, users can confidently use their MT Pro in rain, underwater up to 10 meters, or in any other situation that calls for a pixel capable tube light near water. This accessory is a key addition to the toolkits of MT Pro owners that can expand the flexibility of this already multifaceted fixture.

## Product Description

The Aputure Waterproof Pouch for the MT Pro is a transparent and high light transmittance TPU waterproof pouch that allows users to deploy the MT Pro in underwater environments up to 10 meters deep. This waterproof pouch has an IPX8 waterproofing rating and can withstand a maximum water pressure of 0.21 Mpa. Whether deploying an MT Pro underwater or using one in the rain, this accessory greatly increases the range of use cases for the MT Pro.
