

STORM CS32 Air Deflector

Product Manual

English

Introduction

The Air Deflector is specifically designed for CS32 matrix installations, forcibly directing hot air exhausted from the top of the luminaires to the rear side, effectively preventing hot air from interfering with each other among densely packed devices and improving the overall heat dissipation environment. This design reduces the impact of temperature rise on adjacent luminaires, ensuring stable operation of the matrix under full load conditions and increasing the overall matrix power density.

Components List

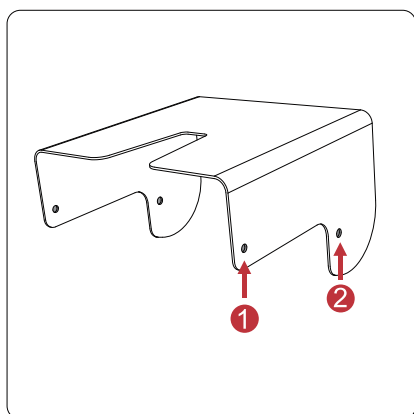

Air Deflector x 1

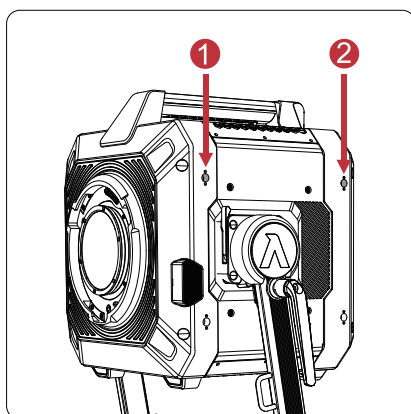

Thumb Screws x 4

Operating Instructions

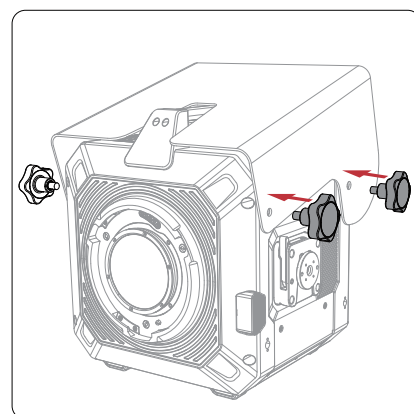

1. Schematic diagram of Air Deflector installation

Air Deflector cover
screw holes

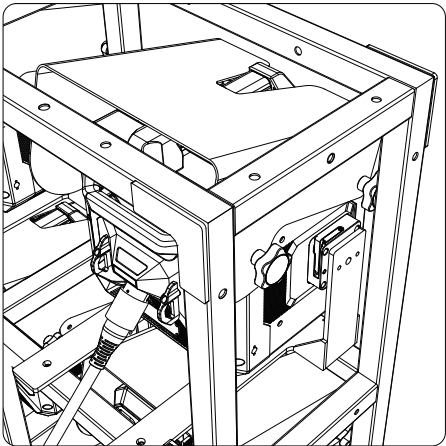

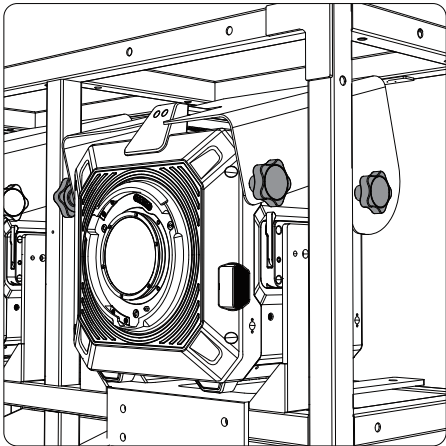

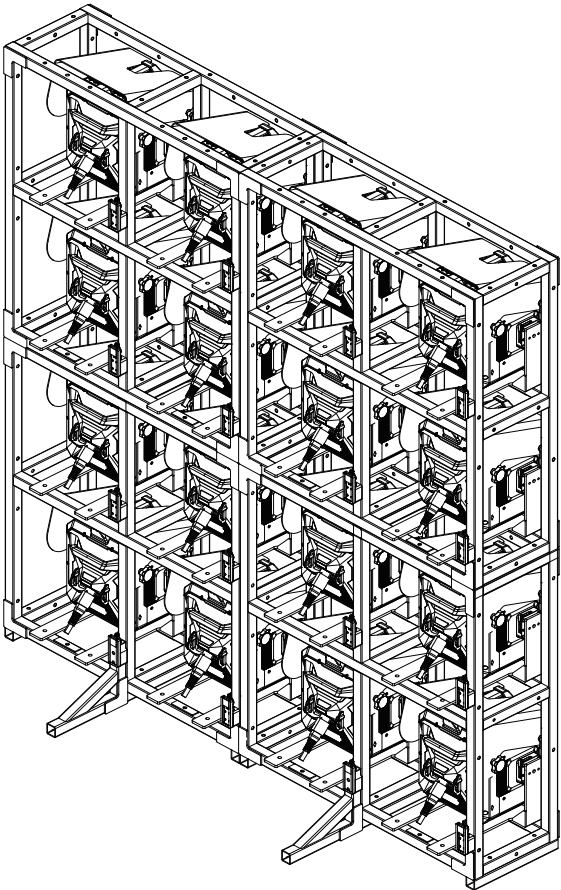

Lamp body screw holes

Install Thumb screws

2.Matrix Layout

Air Deflector specification	Dimension: 33 x 33.7 x 21.4 cm
	Weight: 0.614kg

**Using the air Deflector can accommodate a matrix of higher-power lighting fixtures. However, if the ambient temperature is too high, the lighting fixtures may reduce their power output.*

Important Safety Instructions

1. Please read and understand all instructions before use.
2. Do not disassemble the product yourself. If damaged, please contact after-sales service.
3. Do not expose the product to high temperatures for extended periods, as this may accelerate aging and deformation.
4. This is a special device; keep it out of reach of children.
5. The Air Deflector is a high-temperature component during use; Avoid burns.
6. Avoid placing the device near flammable or volatile solvents such as alcohol and gasoline.
7. Please use this product according to the instructions in the manual. Improper operation may damage the product.
8. This manual is based on company standards. Changes to product design and specifications are subject to change without notice.

Disclaimer

Please read the Product Manual before usage to ensure that you have fully understood the instructions and can correctly operate the device. After your reading, please keep the Product Manual properly for reference in the future. If you fail to operate the product correctly, you may get injured seriously or harm others seriously, or damage the product and result in your property damage. Your operation of the product will be deemed that you have understood, recognized and accepted all clauses and content of this document. Users undertake to be responsible for their behaviors and the consequences accordingly. Aputure will not be responsible for all losses arising from users' operation of this product not in accordance with the User's Manual.

The Company reserves the right for the final explanation of this document and all documents relating to the product on the premise of compliance with laws and regulations. No further notice will be given in the event of any update, revision or termination. Please access the official website of Aputure for the up-to-date product information.
